

Product: Bus bar insulator (with screws)

Model: SM-51M8

Product performance

Operating temperature: - 40°C ~ 140°C

Material: unsaturated polyester tree glass fiber reinforced compressive plastics (BMC) (SMC).

Nuts material: brass, iron.

Mosaic

Nut specification: M8 (options: M10)

Screw hole depth: 10.5mm (M10: 13.5mm)

Strength

Axial tension: 300N

Bending resistance: 5000N

Tightening torque: 15N/m

Insulation property

Insulation resistance: > 1000mΩ

Electrical properties

Working voltage: 600V

Pulse voltage: 5000V

Leakage current at 2000V Working Voltage: < 1mA

Withstand voltage: 12KV

Standard:

EN60243-1: 2013

Manufacture: WENZHOU HAIZHAN ELECTRIC CO., LTD
