

### Product Introduction:

This in-car rearview mirror is equipped with the advanced SSC8339 chipset, a Full HD AHD 1080P rear camera, and a 9.66-inch touch display. It provides real-time monitoring of rear seat passengers while maintaining the traditional rearview function. Installed in place of the original mirror, it clearly displays live interior footage directly on the mirror screen, allowing the driver to always stay aware of in-car activity. Ideal for family cars, ride-hailing services, and business vehicles, it enhances both driving safety and passenger comfort.

### Key Features:

1. **High-Performance Chipset:** Powered by SSC8339 for faster and more stable image processing
2. **HD Monitoring:** AHD 1920×1080P rear camera delivers crisp, detailed visuals
3. **9.66-Inch Touch Display:** Mirror-integrated touchscreen for intuitive operation and clear viewing
4. **Easy Installation:** Fits original mirror mount, no vehicle modification required

### Specification:

Product: Camera Display

Model: W02

Chipset: ssc8339

Sensor: Rear: AHD 1080p

Display: 9.66 Inch Screen, Touch screen

Installation method: ACC Wiring, DC12V

Bracket: for vehicle "Toyota Land Cruiser Model 250. Year 2025".

Certificate: CE, RoHS

Manufacture: Shenzhen ROSOTO Technology Co., Ltd.
